PEMBERTON TOWNSHIP HIGH SCHOOL
ATHLETIC TRAINING

ImpACT (Immediate Post-Concussion Assessment and Cognitive Testing) is the first, most-widely used, and most scientifically validated computerized concussion evaluation system. Use of this system provides assistance in determining an athlete’s fitness to return to play after suffering a concussion.

TEST FEATURES:

- Measures player symptoms
- Measures verbal and visual memory, processing speed and reaction time
- Reaction time measured to 1/100th of second
- Assists clinicians and athletic trainers in making difficult return-to-play decisions
- Provides reliable baseline test information
- Produces comprehensive report of test results
- Results can be e-mailed or faxed for fast consultation by a neuropsychologist
- Automatically stores data from repeat testing
- Testing is administered online for individuals or groups
- Compatible with PC and MAC

ImpACT takes approximately 20 minutes to complete. The program measures multiple aspects of cognitive functioning in athletes, including:

- Attention span
- Working memory
- Sustained and selective attention time
- Response variability
- Non-verbal problem solving
- Reaction time

Pemberton Township High School utilizes ImpACT for all athletes. Prior to contact athletes must log on to the website: www.impacttestonline.com/schools
