Mad Science has teamed up with NASA in a quest for exploration! We'll take a voyage of discovery into the atmosphere and beyond as we explore planets, moons, and other space phenomena in our solar system. Things will heat up as we examine the sun and other stars and discover the difficulties of space travel! Kids will get a firsthand experience of the challenges of living in space as they try assemble a satellite while training to be an astronaut. Kids will love to build their own Mad Science rocket, and participate in a real "NASA" style rocket launch. Campers will have lots of projects to make and many cool NASA take homes, including a gravity assisted launcher, a Shuttle Copter, and more! Mad Science is the ONLY organization licensed by NASA to use these activities for Summer Camps. **This Camp is Out of this World!**

Lunch will be available for all campers.
