Superintendent of Schools

Dear Parent/Guardian,

The New Jersey Department of Education code states that each student's medical examination shall be conducted at the "medical home" (family physician) and recorded on a form supplied by the school. If the student does not have a "medical home" (family physician), the district shall provide this examination at the school's physician's office or other appropriate facility. Southern Jersey Family Medical Center performs physicals and other medical services. You can make an appointment by calling 1-800-486-0131. A student's "medical home" is defined as a health care provider and that provider's practice site is chosen by the student's parent or guardian for the provision of health care.

Each student shall be examined as REQUIRED below:

- 1. All students ages 3-5 upon initial entrance to school (initial entrance may be pre-school or kindergarten within the state of New Jersey.
- 2. All new students from out-of-state within 30 days of entry.
- 3. Student's participation in sports (Intramural and Interscholastic) grades 6-12. Please see your School Nurse for the specific form that must be used or download it from the district website.

\*(A student transferring in from outside of the United States may need to be tested for tuberculosis. Your child's School Nurse will notify you if this applies to your child.)

It is recommended that subsequent physicals be done:

- 1. Pursuant to a comprehensive Child Study Team evaluation, if recommended.
- 2. During the student's pre-adolescence fourth through sixth grade.
- 3. During adolescent (7<sup>th</sup> through 12<sup>th</sup> grade).

If you do not have a medical provider (family physician) for your child, please contact your school nurse for information. Thank you for your cooperation.

Parents/Guardians & Physicians:

- The sport physical may only be completed by a licensed physician, advanced practice nurse or physician assistant that has completed the <u>Student-Athlete Cardiac Assessment Professional Development</u> <u>Module.</u> (Per the Scholastic Student-Athlete Safety Act (P.L. 2013, c.71), N.J.S.A. 18A:40-1.1 & N.J.S.A. 18A:40-41d) It is recommended that you verify that your medical provider has completed this module <u>before</u> an appointment. If you do not have health insurance Southern Jersey Family Medical centers (609-894-1100) can provide services.
- The state required form is attached. This must be <u>filled out completely</u> by parent and physician. Incomplete forms will be returned and the student will be ineligible to participate in a sport until it is corrected.
- The Pre-Participation Physical Evaluation Form (4 pages) must be taken with you to your doctor's office. The parent completes the History Form/Supplemental History Form. Your physician must review the History Form/Supplemental History Form and then fill out the entire Physical Examination Form/Clearance Form.
- The Physical Examination Form/Clearance Form is good for 365 days or one calendar year. If your child's physical should happen to expire in the middle of the sport season, they will be allowed to finish/complete that sport only.
- Per NJ state law all sport physicals must be reviewed and approved by the school physician <u>prior to any</u> <u>tryouts or practice</u>. All paperwork must be completed and returned in a timely manner to ensure approval and eligibility for sports participation. The school physician will be available to sign the physical exam forms prior to the start of each season on his regular scheduled day <u>which is once a week</u>. If physicals are turned in after the school physician's scheduled day, there will be a turnaround time of 7 to 14 days. <u>PLEASE PLAN</u> <u>AHEAD AND GET YOUR COMPLETED PHYSICAL TURNED IN AT LEAST 2 OR MORE WEEKS PRIOR TO TRYOUTS.</u>
- Students with asthma, serious allergic reactions or diabetes are required by state law (N.J.S.A. 18A:40-12.3 & 12.8, N.J.S.A. 18A:40-12.5 & 12.6, N.J.S.A. 18A:40-12.11 through 12.15) to have action plans completed <u>every school year</u>. If these forms are not returned, your child will not be able to participate in <u>any</u> after school activities (sports, clubs and trips).
- The school district will provide written notification to the parent/guardian, indicating approval of the sports physical based upon review of the physical by the school physician, or must provide reason(s) for the disapproval of the student's participation.
- A Health History Update Questionnaire for Athletics must be completed every <u>90 days</u> or prior to a new seasonal sport (fall, winter, spring) per state law. The update informs us if your child has had any medical problems since his or her last physical. Explain all "yes" answers on parent form and a doctor's note may be required for clearance.
- All forms are available in the nurse's office/main office and can be downloaded from the Helen Fort/Newcomb Middle School's website, go to *Directory* then *Nurse's Corner*. High School forms can be downloaded from the Athletics Page on the high school's website.
- All physicals and medical forms must be turned into the <u>nurse's office</u>. This cuts down on lost paperwork. <u>We advise that you make copies for your records of any paperwork you send to the school</u>. We are unable to fax or make any copies for you.
- Parents and students must also sign that they reviewed the educational fact sheets on sports-related concussions and sudden cardiac death in young athletes, <u>before</u> any student participation in sports. This paperwork will be given out by the coaches. High school level requires additional paperwork.

Feel free to call us during the school calendar year at 609-893-8141, if you have any questions. For more informationplease review the state's website *Frequently Asked Questions* which are available at <u>http://www.state.nj.us/education/students/safety/health/services/athlete/faq.pdf</u>.

#### MINIMUM IMMUNIZATION REQUIREMENTS FOR SCHOOL ATTENDANCE IN NEW JERSEY N.J.A.C. 8:57-4: IMMUNIZATION OF PUPILS IN SCHOOL

\* Footnote: The requirement to receive a school entry booster dose of DTP or DTaP after the child's 4th birthday shall not apply to children while in child care centers, preschool or prekindergarten classes or programs.

> The requirement to receive a school entry dose of OPV or IPV after the child's 4th birthday shall not apply to children while in child care centers, preschool or prekindergarten classes or programs.

- \*\* Footnote: Antibody Titer Law (Holly's Law)—This law specifies that a titer test demonstrating immunity be accepted in lieu of receiving the second dose of measles-containing vaccine. The tests used to document immunity must be approved by the U.S. Food and Drug Administration (FDA) for this purpose and performed by a laboratory that is CLIA certified.
- <u>\*\*\* Footnote</u>: No acceptable immunity tests currently exist for Haemophilus Influenzae type B, Pneumococcal, and Meningococcal.

#### Please Note The Following:

The specific vaccines and the number of doses required are intended to establish the minimum vaccine requirements for child-care center, preschool, or school entry and attendance in New Jersey. These intervals are not based on the allotted time to receive vaccinations. The intervals indicate the vaccine doses needed at earliest age at school entry. Additional vaccines, vaccine doses, and proper spacing between vaccine doses are recommended by the Department in accordance with the guidelines of the American Academy of Pediatrics (AAP) and Advisory Committee on Immunization Practices (ACIP), as periodically revised, for optimal protection and additional vaccines or vaccine doses may be administered, although they are not required for school attendance unless otherwise specified.

Serologic evidence of immunity (titer testing) is only accepted as proof of immunity when no vaccination documentation can be provided or prior history is questionable. It cannot be used in lieu of receiving the full recommended vaccinations.

#### Provisional Admission:

Provisional admission allows a child to enter/attend school after having received a minimum of one dose of each of the required vaccines. Pupils must be actively in the process of completing the series. Pupils <5 years of age, must receive the required vaccines within 17 months in accordance with the ACIP recommended minimum vaccination interval schedule. Pupils 5 years of age and older, must receive the required vaccines with the ACIP recommended minimum vaccination interval schedule.

#### Grace Periods:

- <u>4-day grace period</u>: All vaccine doses administered less than or equal to four days before either the specified minimum age or dose spacing interval shall be counted as valid and shall not require revaccination in order to enter or remain in a school, pre-school, or child care facility.
- <u>30-day grace period</u>: Those children transferring into a New Jersey school, pre-school, or child care center from out of state/out of country may be allowed a 30-day grace period in order to obtain past immunization documentation before provisional status shall begin.
