

SCHOOL HEALTH SERVICES & REGULATIONS

School Health Services are provided by the school nurses for the purposes of:

1. Care of emergency sickness or injury in school.
2. Communicable disease prevention and control.
3. Determination of health needs.
4. Follow-up and interpretation of health needs to pupils and parents.

Parent cooperation is requested in the following situations:

1. A doctor's note is needed when your child returns to school from an absence due to illness or injury. A gym note should also be obtained from the doctor if your child is unable to participate in physical education class because of the illness or injury.
2. Students returning from an absence with **medical equipment, such as crutches, wheelchair, cane, etc. must have a doctor's order for the equipment.**
3. If your child is absent due to illness or injury, please call the school to inform us of the problem.
4. **Any** health problems should be brought to the attention of the school nurse who also should be informed of **medications your child takes at home.**
5. Your child should be kept home and the nurse should be contacted if he/she has contracted any communicable diseases: i.e., measles, mumps, strep throat, ringworm, chicken pox, pink eye, etc. A doctor's note to return to school will be required. Ringworm must be covered while at school.
6. If your child becomes seriously ill or injured in school, you will be called to make arrangements for him/her to be picked up.

HEALTH REGULATIONS IN GENERAL

1. Keep up-to-date home, work, and emergency telephone numbers filed in the Nurse's and main office. You, as the parent(s)/guardian(s) have the responsibility to keep these numbers current. The school has no place to care for your child for an extended length of time. We must have the name and telephone number of a friend, relative, neighbor, or baby sitter who would be able to care for your child until you return home. Please remember, you are responsible for your child's welfare 24 hours a day.
2. A child who has diarrhea or vomiting can not be sent to school. A child who has been sent home due to **diarrhea or vomiting should remain at home the rest of that day and the following day or until symptom free.** Example - If a child is sent home sick on Wednesday, student can not return to school until Friday.
3. A child sent home from school with a **fever (100 degrees Fahrenheit or above) should not return to school until the temperature has been normal (less than 100 degrees Fahrenheit) for 24 hours without medication.** See above example.
4. Any child with a rash should not be sent to school until it has been determined not to be contagious by a health care provider.
5. **Students who have a doctor's note stating they cannot participate in gym, also cannot participate in recess or after school sports for the time frame specified on the doctor's note.**

ENROLLMENT PROCEDURES & IMMUNIZATIONS

Please inform the school nurse of any specific health problems your child may have; even the slightest condition may have an effect on your child's learning process. New students to our district must have a physical within 30 days of enrollment, regardless of their age. It is important for parents/guardians to obtain subsequent medical examinations for their child at least once during each developmental stage, at early childhood (pre-school through grade three), pre-adolescence (grade four through six) and adolescence (grades seven through twelve) per NJ Administrative Code – Chapter 16, subchapter 2, 6A:16-2.2. All new students must also, by law, present an up-to-date record of immunizations (required by the State of New Jersey) before being admitted to school.

MEDICATION POLICIES

New Jersey State Law regulates that the administration of medication to students in school be discouraged except when the student's health may be jeopardized without it. The following rules must be followed.

1. Medication will be dispensed to your child by the school nurse.
2. At no time may a student carry/self-administer any medication unless there is a life-threatening circumstance and permission is granted in writing by your child's physician and you.
3. Students must have a written statement from a doctor stating that the medication needs to be given at school. Written permission from the parent needs to accompany the physician's statement.
4. **Medication orders must be renewed at the beginning of every school year. Participation in after school activities or attending field trips will be denied if the student needs medication and orders are not on file with the school nurse.**
5. The medication must be in the original container and clearly labeled by the pharmacist with the student's name, the medication (check to make sure it has not expired), the dosage, and the time to be given.
6. The medication must be given to the school nurse by a parent/guardian and will be stored in the nurse's office.
7. Students with asthma, serious allergic reactions or diabetes are required by state law to have action plans completed **every school year.**
8. The state of NJ now requires that a trained delegate be available for any student who may need an epi-pen or glucagon when the school nurse is not available. Please have your doctor complete those forms **every school year.**
9. Students who have doctor's orders to carry/self-administer their inhalers/epi-pens should have one in the nurse's office and carry one at all times.

SPORT PHYSICAL PAPERWORK (MIDDLE SCHOOL & HIGH SCHOOL)

1. All sport physicals must be performed by the student's own doctor per NJ state law. If you do not have health insurance South Jersey Family Medical Center (609-894-1100) can provide services.
2. Only the NJ Department of Education Physical Examination Form can be used for sport physicals. The form must be **filled out completely** by the parent and physician. Incomplete forms will be returned and the student will be ineligible to participate in a sport until it is corrected. Reviewing the paperwork **before** you leave the doctor's office will save you a lot of time and aggravation later.
3. The sports physical (Part B) is good for 365 days.
4. A law has been passed by the state of NJ stating each sport physical must be reviewed and approved by the school physician **prior to any tryouts or practice. It is imperative that all paperwork is completed and returned in a timely manner to ensure approval and eligibility is obtained prior to any sports participation.** The school physician will be available to review the physical exam forms on his regular scheduled day – **which is once a week.** If physicals are turned in after the school physician's scheduled day, there will be a turnaround time of 7 or more days. **PLEASE PLAN AHEAD AND GET YOUR COMPLETED PHYSICAL TURNED IN AT LEAST 2 OR MORE WEEKS PRIOR TO TRYOUTS.**
5. A Seasonal Update Form for Athletics must be completed every **60 days** or prior to a new seasonal sport (fall, winter, spring) per state law. The update informs the nurse if your child has had any medical problems since his or her last physical. Explain all "yes" answers on the parent form and a doctor's note may be required for clearance.
6. Parents and students must also sign that they reviewed the educational fact sheet on sports-related concussions. (Interscholastic sports only.) Parents will also be given an educational fact sheet on sudden cardiac death before any student participation in sports. (Interscholastic & intramural sports.) Please see your child's coach or athletic trainer concerning this issue.

NURSE'S OFFICE FORMS (MIDDLE SCHOOL & HIGH SCHOOL)

All forms are available in the nurse's office upon request and can be downloaded from the nurse's web page. During the summer months, physical and medication forms are available in the main office.

Once your child's paperwork is completed, he/she needs to **personally bring it to the nurse's office.** Handing it directly to the nurse cuts down on lost paperwork. This also gives the nurse the opportunity to ask your child any questions if needed. **We advise you to make copies for your own records of any paperwork you send to the school.** We are unable to fax or make any copies for you.

PEDICULOSIS

Pediculosis (head lice) is a very prevalent condition which can affect children of all ages. Head lice infestation occurs without regard to income or social economic position. If cases of head lice are discovered, reported, and treated early, the chances of a major outbreak are considerably reduced. Our district has a "NO NIT POLICY" and returning students must be examined by the school nurse before readmission to school. If at the return examination your child still has head lice, you will be required to take your child home for further treatment.

HEALTH SCREENING PROCEDURES

Growth and development are related to inherited characteristics and environmental influence throughout the life cycle. We screen your child per the State of New Jersey guidelines. If there is a concern, you will be notified and advised to consult with your physician for further evaluation and treatment of any problem.

LOCAL HEALTH RESOURCES

A **family health care center, Southern Jersey Family Medical Center**, is open and taking appointments at New Lisbon Center - Aspen Hills Healthcare Center (formerly Buttonwood Hospital) in Pemberton Township. The center located at 600 Pemberton-Browns Mills Road provides services based on a sliding fee scale and also accepts clients with Medicare, Medicaid or other types of public or private insurance. Residents with no health insurance are encouraged to seek health care at this facility. The center's hours of operation are Monday through Friday, 8:30 a.m. – 5:00 p.m. The phone number is 609-894-1100. This facility also has a **dental center and bilingual staff.**

Burlington County College has a Dental Health Center. They offer a wide variety of dental health preventive services, such as cleanings, examinations, fluoride treatments, sealants and x-rays. There is a nominal charge of \$5.00 per visit. To schedule and appointment, please call 609-894-9311, extension 1074. The BCC Dental Health Center is located in the Parker Center of BCC's Pemberton Campus at 601 Pemberton Browns Mills Road (County Route 530).

Should you need help with **immunizations** you can call the **Burlington County Health Department Clinic** at 609-265-5526. The BCHD is located at 15 Pioneer Blvd., Westampton, NJ 08060.

For a complete list of local health resources contact your school nurse or check the nurse's web page.

HEALTH INSURANCE

Many of you have your children covered under your employer plan. However, some children do not have any coverage and this is where our school system can help. Governor Corzine signed into law P.L2008 Chapter 38 mandating that all children under the age of 18 have health insurance.

This is a tremendous opportunity because we will help you obtain health coverage for your children and possibly your entire family by sending your contact information to NJ Family Care. Written consent is required pursuant to 20 U.S.C. 123g (b) (1) and 34 C.F.R. 99.30 (b) so, the parent must sign in the health insurance section on the Emergency Information Verification Form and we will send your contact information to NJ Family Care. The Emergency Information Verification Form (emergency card) will be sent home the first day of school with your child.

Please feel free to contact your school nurse with any questions regarding NJ Family Care or you can contact them directly at (800) 701-0710 or visit www.njfamilycare.org to apply online. If you have applied

recently and are receiving coverage please let your school nurse know. This will allow our district to keep your child's information up-to-date.
