Mission Statement

The Special Education Advisory Team (S.E.A.T.) aims to provide a venue for parents, school personnel, and community members to share, support, and collaborate on issues effecting children with special needs. Our committee's sole purpose is to promote the inclusion of children with special needs within our schools and community at large.

Our team will seek to accomplish this mission by: providing input on policies, programs, and practices that impact supports and services for children with disabilities and their families; increasing the involvement of families of children with special needs into making innovative recommendations; developing a parent support network for parents by parents; and, providing professional development opportunities for parents that promote effective parental support.
