

10th Grade Health/Driver's Education

Unit Title: New Jersey Graduated Drivers License (GDL) System

Stage 1: Desired Results

Standards & Indicators:

2.3.12.PS.1: Apply a thoughtful decision-making process to evaluate situations and influences that could lead to healthy or unhealthy consequences (e.g., peers, media).

2.3.12.PS.3: Summarize New Jersey motor vehicle laws and regulations, Safe Stops, and determine their impact on health and safety (e.g., organ/tissue donation, traffic safety, avoid driving distractors, seatbelt use, the use of hand-held devices).

2.3.12.PS.4: Investigate the relationship between alcohol, drug use, and motor vehicle crashes and analyze the short- and long-term consequences of these actions.

2.3.12.ATD.2: Compare and contrast the incidence and impact of commonly abused substances on individuals and communities in the United States and other countries (e.g., tobacco, e-cigarettes, vaping products, alcohol, marijuana products, inhalants, anabolic steroids, other drugs).

2.3.12.ATD.3: Explore the relationship between individuals who abuse alcohol, tobacco, and other drugs with an increase in intentional and unintentional health-risk behaviors.

2.3.12.DSDT.3: Examine the drug laws, and regulations of the State of New Jersey, other states and the affects; healthy and unhealthy on individuals, families, schools, and communities (e.g., vaping products, e-cigarettes, cannabis and CBD products, opioids).

2.3.12.DSDT.5: Evaluate the effectiveness of various strategies and skills that support an individual's ability to stop misusing and abusing drugs and remain drug free (counseling, peer coaching, professional peer support group, and family counseling and support).

Career Readiness, Life Literacies and Key Skills

Standard	Performance Expectations	Core Ideas
9.4.8.CT.3	Compare past problem-solving solutions to local, national, or global issues and analyze the factors that led to a positive or negative outcome.	An essential aspect of problem solving is being able to self-reflect on why possible solutions for solving problems were or were not successful.

Central Idea / Enduring Understanding:

- Decision-making can be affected by a variety of influences that may not be in a person's best interest.
- Developing and implementing a plan to each realistic wellness goals increases the likelihood of reaching those goals.

Essential/Guiding Question:

- How does passing a knowledge test relate to being a good driver?
- Does a good driver need the physical ability to perform driving maneuvers or is content knowledge enough? Why/not?

10th Grade Health/Driver's Education

- Character can be developed and supported through individual and group activities, the influence of positive role models and involvement in community service.
- Substance abuse, dependency, and substance disorder treatment facilities and treatment methods require long-term or repeated care for recovery.
- Consideration of the short- and long-term impact of decisions can assist individuals in determining whether a choice is likely to result in healthy or unhealthy consequences.
- Long-term and short-term consequences of risky behavior associated with substance use and abuse can be damaging physically, emotionally, socially, and financially to oneself, family members and others.
- Alcohol and drug dependency can impact the social, emotional, and financial well-being of individuals, families, and communities

Content:

- Learn the procedures for moving into traffic and leaving traffic, and explain the steps involved in making lane changes.
- Understand the various steps for right and left turns.
- Learn how to steer in reverse and describe the four ways to make a turnabout.
- Understand the difference between angle, perpendicular, and parallel parking.
- Describe the procedures for passing another vehicle and for being passed by another vehicle.
- Understand traffic laws by exploring administrative laws, right of way rules, speed limits, and driver condition laws.
- Recognize traffic signs, as well as traffic signals and pavement markings.
- Understand the various safety checks that should be conducted before operating the vehicle.
- Become familiar with regulatory and warning signs and discuss the appearance, importance, and response required of each sign.
- Consider examples and descriptions of various guide signs and international signs that are used in the United States.

Skills(Objectives):

- Understand different options that they could choose from when it comes to driving. (ex: to attend driving school or not)
- Acknowledge the different tests that must be completed in order to get a license, such as, vision test, knowledge test, and road test.

10th Grade Health/Driver's Education

- Become familiar with pavement markings, and learn to recognize and respond to various yellow and white roadway lines and other markings on the roadway.
- Learn to recognize, understand, and respond to traffic signals, pedestrian signs, traffic officer's signals, and lane-use lights.

Interdisciplinary Connections:

Language Arts: persuasive writing; informational process writing (slides; brochures, etc.)

Stage 2: Assessment Evidence

Performance Task(s):

Determination of Grade:

The following will determine the student's grade for the course:

Class Participation/Preparation:

This means being present, prepared for class, and participation in the daily activities.

Test/Projects Assessment:

There will be quizzes/test on all major topics covered in class.

Homework:

To receive credit for class, students must meet the requirements for class attendance as set forth by the districts policy on attendance.

Other Evidence:

Do nows

Closure activities (ex. exit tickets, kahoots, KWL charts)

Teacher observation

Graphic Organizers

Student generated "skits"

Tests/quizzes

Student Contract:

Students will sign contract with teacher which states the Driver Education academic work packet must be completed and turned in prior to taking the State Exam for the NJ State Permit. Students who fail to turn in completed packet at time of test will not be able to take the exam for the purpose of acquiring the NJ State Permit. These students will take the test as a final exam only.

Stage 3: Learning Plan

Learning Opportunities/Strategies:

Judge how adherence or a lack of adherence to core ethical values impact behaviors that influence the health and safety of people everywhere.

Analyze the importance of complying with motor vehicle laws and avoiding driving distractors, including drug and

An essential aspect of problem solving is being able to self-reflect on why possible solutions for solving problems were or were not successful.

Central Idea / Enduring Understanding:

- Research has clearly established that alcohol, tobacco and other drugs have a variety of harmful effects on the human body.
- Consideration of the short- and long-term impact of decisions can assist individuals in determining whether a choice is likely to result in healthy or unhealthy consequences.
- Long-term and short-term consequences of risky behavior associated with substance use and abuse can be damaging physically, emotionally, socially,

Essential/Guiding Question:

- Why do people choose to use alcohol, tobacco, and other drugs when they are aware of the detrimental effects?
- How do I make the "right" decisions in the face of peer, media, and other pressures?
- If someone is under the influence, what options are available in order to prevent him or her from operating a vehicle?

10th Grade Health/Driver's Education
